## Firemen's Ball To Be Some Big Time

The Firemen's Ball to be given Feb. 20 is going to be some dance, to judge from the preparations that are being made, and the committee are sure working to make it a record breaker. The dance will be held in the Red Men's Hall and the music will be the best obtainable. A card party will be arranged up stairs for those who do not dance and a good supper to top it off. So whether you dance or not

you should attend this Ball as the proceeds go to the relief of the Alert Fire Co. And who can tell when the next fire is coming or who will be the next one hurt and need this assistance. So one and all come as the music will be fine and you are assured of a grand time. The admission is \$1.50 per couple including supper and extra suppers 50c each.

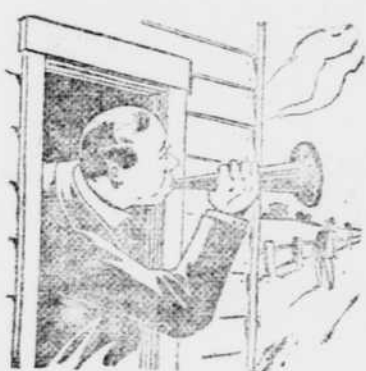

## Frank Clarke Some Proud

Have you noticed that smile on Frank Clarke this week and it won't come off either. The reason is a

fine big baby girl was born at his home last Monday. Mother and daughter are both doing fine.

Mrs. Charles F. Radenbaugh of Ketchikan arrived on the Spokane last Sunday morning for a visit at the home of the Editor. Mrs. Stanhope being a daughter.

## Wrangell To Have New Water Dam

Wrangell is to have a new water dam. That sentence means a lot to our little city and the fact that we need one has been demonstrated several times and at last it is almost an assured fact that before another winter sets in Wrangell will be getting her supply of water from a much better and more practical source.

During the past two weeks the city council has had a party of surveyors under the supervision of A. H. Lawrence surveying and mapping a new dam which when completed will be 20 feet high across the mouth and cover an area approximately 9.8 acres and will hold 31,000,000 gallons of water.

The dam will be situated twenty-five hundred feet back from the old dam, and will have a fall of some 60 feet more. The water will

be brought to town in the old pipes connecting near the old dam and a stop valve will be installed at intake to take the extra pressure from the water main as the pipes will not stand any more than at present, but the water supply will be unlimited.

The undertaking of building this dam is no little thing and the present council deserve much credit in the way they are forging ahead on the matter, and the fact that we shall have an unlimited supply of water certainly means much for our growth, as every year the old main has doubled her taps until at last it is far too small to supply the growing usage.

Mr. Gingrass, Chairman of the water committee assures us that this dam is a certainty and we can hardly forbear a shout of approval for all concerned.

## Farewell Banquet For Mr. Schnabel

Last Thursday evening the Alert Fire Co. gave a farewell banquet to its former President, William F. Schnabel, in the dining room of the Wrangell Hotel. P. C. McCormack acted as toastmaster. During the evening Mr. Schnabel was presented with his fire helmet and a nugget pin as a token of the regard

and esteem in which he was held by the fire boys. The banquet was a decided success, and the supper put up by our local hotel man could not be beat. It was the best ever.

According to reliable information received this week the Swift Packing Co. cannery at Warm Chuck on Heceta Island will operate this season with a full crew.

## EDITORIAL

The Seattle Chamber of Commerce is doing much good publicity work with their Alaska exhibits which they recently sent to Washington D. C. where it was thoroughly examined by President Wilson.

Besides the exhibit the Chamber has published and distributed, far and wide, pamphlets containing much reliable information concerning Alaska, some of the paragraphs are as follows.

The department of agriculture has announced that Alaska has more than 4,000,000 acres of land on which there are possibilities for farming and grazing. The department has four experimental stations one on the Yukon, within seventy-five miles of the Arctic circle; another in the interior, one in Southern Alaska and one in the southwestern part.

Currants, raspberries, gooseberries, blueberries and cranberries plentiful in the Northland. Varieties of wheat, oats, rye, barley potatoes and many other vegetables have matured every season since the department has started its work at its two most northern stations.

The new bulletin on Alaska, while reciting so many optimistic facts, also points out the home-steaders difficulties which will be encountered. The federal homestead laws and Alaska, but in the matter of the entry, the 20 acre homestead instead of 160. On the latter upon unimproved land, and establish line, metes and bounds, but title cannot be obtained until the survey is made and approved. Little of the available land has been surveyed, although that work is now progressing.

Seattle is nearer Maine than it is to the western point of Alaska; the mean annual temperature of Sitka is about the same as that of Washington, D. C.; Alaska has numerous deep land-locked, ice-free harbors; the coast line is 26,000 miles long and there are 6,000 miles of navigable rivers.

Denver, Feb. 12 John Lawson one of the striking miners, made a written statement today in which he tells of men being shot by hired thugs and violence being used when it is unnecessary.

## Surprise Party

Among the many affairs last week was the surprise party given at the home of Mrs. Paul Stanhope by Miss Lofus and Miss L. Lindman in honor of Miss Edna Lindman's 16th birthday Saturday evening, Feb. 7th. The evening was spent in playing games and music after. Dainty refreshments were served and the guests departed wishing Miss Edna many happy returns of the day.

## "Some Ships"

O. L. Dickeson, the irrepressible "boy president" of the Yukon is at it again. He recently put over on his newspaper friends from Skagway to Seattle inclusive, a choice story to the effect that he would build a couple of million dollar palatial steamships to ply between Seattle and Skagway. It is presumed that Mr. Dickeson will use these steamships for the transportation of tourists who will stop at his Atlin hotel which he so successfully constructed in the papers last spring, but on which work was stopped early in the season. However, the steamships may be expected to be finished as soon as the hotel is ready to receive guests. As it takes from fourteen to eighteen months to construct vessels of this class it is anticipated by Mr. Dickeson's friends that the keels will have to be laid at once so that they may be placed in service by the spring of 1915. These steamships will be built on a somewhat different plan than that adopted usually inasmuch as they will have quadruple bottoms and hot air compartments to say nothing of a message parlor on each deck and a Bell telephone connecting the ship at all times with points on shore. In fact, they are going to be "some ships."—Railway & Marine News.

## Former Marshal Leaves for South

Among the passengers south on the Mariposa were Mr. and Mrs. Wm. F. Schnabel bound for Portland, Oregon. Mr. Schnabel was Deputy United States Marshal at Wrangell for two years and a half, having accepted the office on the 30th of July, 1911 at which time he had just left the Yukon Territory for a visit to his old home in Idaho, expecting to locate there, but decided to move to Wrangell.

Up to the time of his resignation Mr. Schnabel was a conscientious officer doing his duty as he thought it should be done. And as a matter of fact he made enemies as any public official is apt to make them and for the same reason he made friends of others. Mr. Schnabel does not intend to return to Alaska but as any other old Sourdough we would not be surprised to see them return at any future date.

## Takes Sample Ore South

Samuel Muirhead returned from Zarembo Island last Tuesday where he has spent the most of the winter doing assessment work on several mining claims that he holds on that Island. Mr. Muirhead took the Mariposa south to Ketchikan from where he will go south later. He has some promising ore with him that he is taking south for assay.

## John Kadishan Dies Suddenly

One of the best known natives of the Thlinget tribe, John Kadishan, died last Thursday of an attack of pneumonia. Kadishan had just returned from a short trip to Juneau at which place he contracted a bad cold which turned to pneumonia shortly after arriving home and which resulted in his death. Kadishan was a man highly respected in the Thlinget tribe and one of their best native orators. Rev. Clark held the funeral services last Saturday and he was laid to rest here. Mr. Kadishan leaves a daughter, Mrs. James residing at Sitka.
